

Overview:

Ashoka Philippines identifies and supports leading social entrepreneurs through a Fellowship and mobilizes a global community to implement its vision of "everyone a changemaker."

To achieve this, we want to transform the way young people are growing up in a rapidly changing world by equipping them with critical skills such as empathy, collaboration, creative problem solving, and teamwork.

This "Youth Years" work will be launched through the formation of a coalition of established 'Co-Leaders,' working across a range of sectors.

The coalition aims to initially strengthen coordination, collaboration and sharing between a wide range of organisations working with young people to develop 'changemaker skills.'

Ultimately, the coalition aims to grow demand for and access to these skills for young people across the country, so that they can become and self-identify as changemakers in their communities.

Location:

Manila, Philippines.

Our Partnership:

We are supporting Ashoka Philippines with unrestricted funding to further develop their fellowship and to support the initial exploration and development of a 'Youth Years Coalition.'

Whilst the coalition will be coordinated by Ashoka, a core part of the first stage of its establishment is to bring together 'Co-Leader' organisations to co-create the vision and the coalition.

This aligns directly with our focus on working with and supporting the development of young people in the Philippines through collaborative interventions that bring together a wide range of organisations to facilitate lasting positive change.

It also presents exciting opportunities for mutual connections, sharing and learning between the Coalition and Tondo Community Initiative.
